

SANIFOLD

Do You Know Where Your Respirator Has Been?

The very environments you want your air-purifying respirators to protect against are, unfortunately, often the same environments where the masks are stored.

That's why each **SaniFold™** mask is hygienically packaged, individually, to ensure the sanitary condition of your respirator. Plus, with a flat-fold design, storage of this NIOSH approved, N95 mask is a snap.

But the benefits don't stop there. With an integrated, staple-free head strap, **SaniFold™** is more durable than conventional respirators. The soft, polypropylene lining looks as good as it feels. Plus, the smooth, sealed border eliminates irritation commonly caused by embossed edges and mesh shells.

Available in three versions – **SaniFold™**, **SaniFold™ OV**, and **SaniFold™ AG** – providing protection against a variety of contaminants. Contact your safety professional for the **SaniFold™** mask that's right for you.

SANIFOLD

Large, 'air pocket' shell makes breathing easier, reducing worker fatigue and increasing compliance.

Durable shell is complemented by a soft, polypropylene lining that helps eliminate irritation, increasing comfort.

Integrated, one-piece head strap is more durable than conventional, stapled versions.

Hygienically sealed package ensures the sanitary condition of your respirator.

These respirators are approved only in the following configurations:

TC-	Protection ¹	Respirators					Cautions and Limitations ²
		80201	80202V	80203C	80204CV	80205A	
84A-3718	N95	X		X		X	A B C J M N O P
84A-3719	N95		X		X		A B C J M N O P

1 Protection
 N-95 Particulate filter (95% filter efficiency level) effective against particulate aerosols free of oil; time use restrictions may apply.

2 Cautions and Limitations
 A - Not for use in atmospheres containing less than 19.5% oxygen.
 B - Not for use in atmospheres immediately dangerous to life or health.
 C - Do not exceed maximum use concentrations established by regulatory standards.
 J - Failure to properly use and maintain this product could result in injury or death.
 M - All approved respirators shall be selected, fitted, used and maintained in accordance with MSHA, OSHA and other applicable regulations.
 N - Never substitute, modify, add or omit parts. Use only exact replacement parts in the configuration as specified by the manufacturer.
 O - Refer to user's instructions and/or maintenance manuals for information on use and maintenance of these respirators.
 P - NIOSH does not evaluate respirators for use as surgical masks.

ORDERING INFORMATION

80201	N95 Particulate Respirator Filtration against aerosols free of oils	20/Box
80202V	N95 Particulate Respirator with Vent Filtration against aerosols free of oils	20/Box
80203C	N95 OV Particulate Respirator Filtration against aerosols free of oils and organic vapors below PEL	20/Box
80204CV	N95 OV Particulate Respirator with Vent Filtration against aerosols free of oils and organic vapors below PEL	20/Box
80205A	N95 AG Particulate Respirator Filtration against aerosols free of oils, organic vapors, and acid gasses below PEL	20/Box
