ISA – Industrial Supply Association
www.isapartners.org

ISEA – International Safety Equipment Association
www.safetysafetyequipment.org

NSC – National Safety Council
www.nsc.org

STAFDA – Specialty Tools & Fasteners Distributors
www.stafda.org

VPPPA – Voluntary Protection Programs'
Participants Association
www.vpppa.org

Founded in 1944, Gateway Safety has been designing and manufacturing high-quality personal protection equipment for more than 65 years. In an industry that's filled with competition, many people have come to view safety products – such as safety glasses and hard hats – as commodities. Gateway Safety does not subscribe to this point of view.

Unlike many of our competitors, Gateway Safety invests significant time and resources into the design and development of our industrial safety products. Rather than simply copying the designs of competitors, Gateway Safety works very hard to develop superior safety products that look better, fit better, and achieve better compliance.

This approach is a lot harder and takes a lot longer. However, the results are definitely worth it. And, clearly, the rest of the industry is taking notice. Over the past few years, Gateway Safety has received several awards and obtained several patents for the designs of our newest safety products.

At the same time, while many of our competitors face high overhead costs and bloated marketing budgets – which you ultimately pay for – Gateway Safety runs a lean operation. We work very hard to create as many operating efficiencies as possible, which enables us to provide our customers with an extremely cost-effective solution.

This combination of stylish, comfortable, and high-quality safety products, all of which are available at very economical prices, represents a unique value proposition in the industry. The folks at Gateway Safety are very proud of our product development success, and we strongly encourage you to take a long look at what we have to offer you and your organization.

EYE PROTECTION ICONS TO LOOK FOR

Throughout the Eye Protection section of this catalog, you will find a number of icons. Each icon packs a lot of information into a little bit of space. Don't take them lightly. When choosing personal protection, consider whether the "mark" is appropriate for your application.

When you see the **ANSI Z87.1+ Certified** icon, you know that both Gateway Safety and an independent third party laboratory regularly test and certify that this product meets or exceeds the ANSI Z87.1+ standard.

When you see the **CSA Z94.3 Certified** icon, you know that both Gateway Safety and an independent third party laboratory regularly test and certify that this product meets or exceeds the CSA Z94.3 standard.

When you see the **Meets ANSI Z87.1+** icon, you know that Gateway Safety regularly tests and certifies that this product meets or exceeds the ANSI Z87.1+ standard.

When you see the **Meets CSA Z94.3** icon, you know that Gateway Safety regularly tests and certifies that this product meets or exceeds the CSA Z94.3 standard.

When you see the **c-UL-us LISTED** icon, you know that Underwriters Laboratories is the independent, third-party agency that has certified that this product meets the ANSI Z87+ and CSA Z94.3 standards. Confirmation can be found in their 'Online Certifications Directory' at www.ul.com.

When you see the **UL LISTED** icon, you know that Underwriters Laboratories is the independent, third-party agency that has certified that this product meets the ANSI Z87+ standard. Confirmation can be found in their 'Online Certifications Directory' at www.ul.com.

When you see the **99.99% UV-A, UV-B and UV-C Protection** icon, you know that Gateway Safety regularly tests and certifies that this product blocks 99.9% of UV-A, UV-B and UV-C radiation up to 380nm.

All certification information is accurate as of the print date of this catalog. For updated information on current product certifications, visit Underwriters Laboratories' 'Online Certifications Directory' at www.ul.com or contact Gateway Safety's customer service department at 800-822-5347.

All Gateway Safety products come with a limited warranty. Gateway Safety products are warranted to be free from manufacturing defects. EXCEPT AS SET FORTH IN THE FIRST SENTENCE IN THIS PARAGRAPH, GATEWAY SAFETY MAKES NO EXPRESS WARRANTY WITH RESPECT TO ANY OF ITS PRODUCTS. GATEWAY SAFETY FURTHER DISCLAIMS ALL IMPLIED WARRANTIES, INCLUDING THE WARRANTY OF MERCHANTABILITY AND THE IMPLIED WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE. This limited warranty shall not apply to any defects that have been caused by customer's failure to follow Gateway Safety's instructions; customer's abuse, misuse, negligence or error; or accident or actions of third parties and other events outside of Gateway Safety's control. Gateway Safety is not and shall not be liable for any incidental or consequential damages and the exclusive remedy during the warranty period is limited to Gateway Safety repairing or replacing the defective product.

LENS SELECTION CHART

More than ornamental, Gateway Safety lens options serve a specific function. This lens selection chart provides a general guideline for use. However, always consult your safety director to determine the proper lens option for each application. Unless otherwise noted, all Gateway Safety lenses feature an anti-scratch coating for extra durability and block 99.9% of UV-A, UV-B and UV-C light, up to 380 nm.

Clear

These untinted lenses are ideal for indoor and general purpose applications.

These lenses provide a significant level of contrast, particularly in low-light applications.

Gray

Mocha

These tinted lenses significantly reduce bright light to minimize eye strain and fatigue.

Clear In/Out Mirror

Bronze Mirror

Pink Mirror

These lenses reflect some bright light while allowing a moderate amount of light through the lens.

These mirrored lenses significantly reflect bright light to reduce eye strain and fatigue.

Red Mirror

Mocha Mirror

Gold Mirror

Silver Mirror

Blue Mirror

Sunset Red Mirror

Horizon Blue Mirror

Emerald Green Mirror

Blue Light Filter

This lens helps reduce blue light exposure, which can lead to a phenomenon called 'Blue Blur.'

Gray Polarized

Polarized lenses reduce glare from reflected light and minimize eye strain.

IR Filter Shade 3.0

IR Filter Shade 5.0

IR filter lenses are for use around light welding, brazing or cutting applications only.

VLT CHART

Lens	VLT (%)	Lens	VLT (%)
Clear	92	Mocha Mirror	14
Amber	89	Gold Mirror	14
Pacific Blue	62	Silver Mirror	23
Orange	50	Blue Mirror	23
Vermilion	50	Sunset Red Mirror	14
Gray	14	Horizon Blue Mirror	14
Mocha	23	Emerald Green Mirror	14
Clear Indoor/Outdoor Mirror	50	Blue Light Filter	18
Bronze Mirror	50	Gray Polarized	12
Pink Mirror	37	IR Filter Shade 3.0	12
Red Mirror	14	IR Filter Shade 5.0	2

VLT (Visual Light Transmittance) is the amount of visible light (+/- 2%) that passes through the lens.

4664	Black	IR Filter Shade 3.0
4666	Black	IR Filter Shade 5.0

StarLite safety glasses have been independently tested to the ballistics section of the U.S. Military Standard, MIL-PRF-31013, Clause 3.5.1.1. Why test to so stringent a standard? Just ask Robert Moctezuma, who saw a bolt blast into his safety glasses. The bolt became embedded in his StarLite safety eyewear, but left him unhurt.

STARLITE® SM

Same great features and benefits as the original StarLite®, now 10% smaller for people with narrow faces.

- The ideal safety eyewear solution for women and men with smaller faces.

NEW

COVER2®

A contemporary over-the-glasses (OTG) design, Cover2® offers workers a compact, modern style that's significantly more attractive than traditionally designed OTG products.

- A one-piece polycarbonate lens fits over most eyewear.
- Flexible temple tips work extremely well with prescription glasses.
- Lightweight design, with adjustable-length temples.

Part #	Temple	Lens
6980	Black	Clear
6983	Black	Gray
6966	Black	IR Filter Shade 5.0

COVERALLS™

Over-the-Glasses. Right on Budget. CoverAlls™ is safety eyewear that has been specifically designed to wear over prescription glasses.

- Larger size accommodates nearly all prescription eyewear.
- Flexible, adjustable-length temples provide a snug fit.
- One-piece polycarbonate lens offers a broad view of the workplace.

Part #	Temple	Lens
6880	Black	Clear
6883	Black	Gray

Cover2's lightweight design, soft nosepiece and flexible temples combine to create an unusually comfortable fit.

EYE PROTECTION eyewear accessories

KLEEN VIEW™

Clear Vision. Long Lasting. Kleen View™ lens cleaning solutions help extend the life of safety eyewear, while keeping your lens clean and clear.

- Anti-fog and anti-static formula helps prolong the life of eye and face protection.
- Kleen View lens cleaning solution is safe for all Gateway Safety® eyewear products.

Part #	Description
550	Large Disposable Lens Cleaning Station 16 oz. Bottle of Solution/1200 Tissues
551	Small Disposable Lens Cleaning Station 8 oz. Bottle of Solution/760 Tissues
552	Lens Cleaning Towelettes 100 Individually Sealed Towelettes

EYEWEAR CASES

Protect Your Investment. Eyewear cases help extend your safety budget by protecting eyewear when your workers aren't on the job.

- Crumple pouch, with standard drawstring, easily holds most safety glasses.
- Available in standard black or a stylish silver vinyl with the Gateway Safety® logo.

Part #	Description
C8000	Crumple Nylon Pouch with Drawstring
C8200	Silver Crumple Pouch with Gateway Safety Logo

SIDE SHIELDS

Add Side Protection in One Easy Step. Side Shields add side protection to traditional prescription and non-prescription eyewear.

- Available in easy-to-install slip-on, clip-on or screw-on versions.
- Patented side shields are an efficient and economical solution.

Part #	Description
US1	Clear Clip-On
AT1	Clear Slip-On
AT7	Clear Slip-On Spec-Shields®
SR1	Clear Screw-On

FLIP-UPS™

Multi-Task...With Just a Flip. Flip-Ups™ quickly attach to traditional, clear protective eyewear, enabling workers to do different jobs.

- The easy "on/off" spring-loaded clip firmly grips eyewear frame for secure fit.
- Flip-Ups™ DO NOT comply with any protective eyewear standards.

Part #	Description
G2	Gray/Polarized
G4	IR Filter 5.0/2mm Thick Polycarbonate

CORDZ™ EYEWEAR RETAINERS

Economically priced, Cordz™ are a highly versatile retainer that can be worn with virtually any glasses.

- 100% nylon material.
- QuikPop™ breakaway feature.
- Loop tips fit virtually all spectacles.

Part #	Color	Breakaway
400	Black	QuikPop™

416	Hi-Viz Orange	QuikPop™
417	Freedom	QuikPop™

DOODADZ™ EYEWEAR RETAINERS

With a stylish design and cost-effective price, DooDadz™ are a popular solution for those who want their eyewear close at hand.

- Soft, nylon/polyester blend.
- QuikRelease™ breakaway feature.
- Sleeve tips fit most standard spectacles.

Part #	Color	Breakaway
420	Black	QuikRelease™
421	Red	QuikRelease™
422	Navy Blue	QuikRelease™
424	Gray	QuikRelease™

GIZMO™ EYEWEAR RETAINERS

The pinnacle of stylish safety retainers, Gizmo's™ adjustable toggle provides an extra secure fit – it feels as good as it looks!

- 100% cotton material.
- QuikPop™ breakaway feature.
- Sleeve tips fit narrow spectacles.

Part #	Color	Breakaway
430	Black	QuikPop™
431	Red	QuikPop™
432	Navy Blue	QuikPop™
434	Gray	QuikPop™

Eyewear retainers keep glasses close at hand, helping provide a safer workplace.

EYE PROTECTION
impact & splash goggles

WHEELZ®

Born to Be Wild. Born to Be Safe. Wheelz® is one part safety glass and one part safety goggle. It combines the style and lightweight comfort of modern safety glasses, with the additional protection of goggles.

- Sleek, compact frame is more attractive than traditional goggles, which tend to be big and bulky.
- Whirlwind™ ventilation system helps minimize fogging by circulating air through the optical chamber.
- Soft, elastic head strap can be easily adjusted to fit a wide variety of head sizes – ensuring a safe, snug fit.

Part #	Frame	Lens
45080	Clear	Clear
45883	Black	Gray
45079	Clear	Clear Anti-Fog
45878	Black	Gray Anti-Fog
4588M	Black	Silver Mirror
4589M	Black	Blue Mirror
4588F	Black	Silver Mirror Anti-Fog
4589F	Black	Blue Mirror Anti-Fog
45564	Green	IR Filter Shade 3.0
45566	Green	IR Filter Shade 5.0
4589P	Black/Foam Edge Pad	Clear Anti-Fog
4588P	Black/Foam Edge Pad	Gray Anti-Fog

Wheelz, clear lens and black frame with foam edge pad.

Wheelz, clear lens and clear frame.

TECHNICIAN™

Serious Protection. Built-In Confidence. Technician™ features a traditional design that is already accepted by many employees.

- Traditional frame design features three unique ventilation systems: perforated, cap vent, and patented 390.
- Perforated and cap venting systems provide ideal protection for dusty environments and from flying debris.
- Patented 390 (three separate 90° angles) ventilation system creates one of the best splash goggles available.

Part #	Vent	Lens
Technician Impact Goggle		
32021	Perforated Vent	Clear
32022	Perforated Vent	Clear Anti-Fog

Technician Splash Goggle		
32061	Cap Vent	Clear
32062	Cap Vent	Clear Anti-Fog
32391	390 Cap Vent	Clear
32392	390 Cap Vent	Clear Anti-Fog

Technician Splash features patented venting system that consists of three 90° angles to prevent chemical splash intrusion!

CYCLONE®

Splash-to-Impact. Versatility Comes Standard. With removable vent inserts, Cyclone® can serve as an effective splash or impact-only goggle.

- Contemporary design, with a soft vinyl frame, is very popular with workers.
- Whirlwind™ ventilation system circulates plenty of air through the optical chamber.
- Includes Double-Take™ inserts that convert Cyclone into a terrific impact-only goggle when removed.

Part #	Vent	Lens
40211	Double-Take™ Inserts Included	Clear
40212	Double-Take™ Inserts Included	Clear Anti-Fog

Whirlwind™ Ventilation System improves user comfort by forcing air through optical chambers.

Removable Double-Take inserts convert Cyclone from a splash to well-ventilated impact-only goggle in seconds.

EYE PROTECTION welding eyewear

WHEELZ® IR

Born to Be Wild. Born to Be Safe. Wheelz® is one part safety glass and one part welding goggle.

- Combines the style and comfort of traditional wheelz, with the protection of a low-level IR Filter.
- Whirlwind™ venting system helps minimize fogging by circulating air through the optical chamber.

Part #	Frame	Lens
45564	Green	IR Filter Shade 3.0
45566	Green	IR Filter Shade 5.0

1710 LIFT FRONT GOGGLE AND 1775 STATIONARY FRONT GOGGLE

Classic goggle design that features 2 x 4¼" lenses for optimal view of the work area.

- Soft vinyl frame is highlighted by a large, venting hood that minimizes fogging.
- Available with a hinged, positive-action lift front; locks in the open or closed position.

Part #	Frame	Lens
1710U50	Soft	2 x 4-1/4" Cover/Lift Front/Shade 5
1775U50	Soft	2 x 4-1/4" Cover/Stationary Front/Shade 5

1100 ECONOMY WELDING GOGGLE

Economical design that features fixed 2 x 4¼" lenses and classic welding goggle styling.

- Soft, lightweight frame is contoured to hug the face, yet fits over most spectacles.
- Popular goggle for employers who need quality protection on a limited safety budget.

Part #	Frame	Lens
1100U50	Soft	2 x 4-1/4" Cover/Shade 5

36 CUP GOGGLE AND 35 CHIPPING GOGGLE

Rigid cup design is an ideal solution for light welding applications in hot work environments.

- Double-walled eyecups, with multiple slot vents, offer maximum ventilation.
- Available in a Chipping Goggle that comes with a 3mm thick, clear polycarbonate lens.

Part #	Frame	Lens
36U50	Rigid	50mm Cup/Shade 5
351P0	Rigid	50mm/Cup/Clear

REPLACEMENT FILTER & SAFETY LENSES

Gateway Safety filter and safety lenses pass the high mass and high velocity impact tests of ANSI Z87.1+ and CSA Z94.3 standards.

POLYCARBONATE IR FILTER LENSES

Provide limited infrared filtration during welding applications.

**FACE PROTECTION
visors, headgear, &
cap adapters**

**FACE PROTECTION
ICONS TO LOOK FOR**

Throughout the Face Protection section of this catalog, you will find a number of icons. Each icon packs a lot of information into a little bit of space. Don't take them lightly. When choosing personal protection, consider whether the "mark" is appropriate for your application.

When you see the **ANSI Z87.1+ Certified** icon, you know that both Gateway Safety and an independent, third-party laboratory regularly test and certify that this product meets or exceeds the ANSI Z87.1+ standard.

When you see the **CSA Z94.3 Certified** icon, you know that both Gateway Safety and an independent, third-party laboratory regularly test and certify that this product meets or exceeds the CSA Z94.3 standard.

When you see the **Meets ANSI Z87.1+** icon, you know that Gateway Safety regularly tests and certifies that this product meets or exceeds the ANSI Z87.1+ standard.

When you see the **Meets CSA Z94.3** icon, you know that Gateway Safety regularly tests and certifies that this product meets or exceeds the CSA Z94.3 standard. However, sales do not warrant independent verification.

When you see the **c-UL-us LISTED** icon, you know that Underwriters Laboratories is the independent, third-party agency that has certified that this product meets the ANSI Z87+ and CSA Z94.3 standards. Confirmation can be found in their 'Online Certifications Directory' at www.ul.com.

When you see the **99.99% UV-A & UV-B Protection** icon, you know that Gateway Safety regularly tests and certifies that this product blocks 99.9% of UV-A and UV-B radiation.

**VISOR SELECTION
CHART**

More than ornamental, each visor option serves a specific function. This visor selection chart provides a general usage guideline. However, always consult your safety director to determine the proper visor option for each application. All Gateway Safety visors block 99.9% of UV-A and UV-B light, up to 380 nm.

CLEAR VISORS
Ideal for indoor applications. Excellent general purpose selection, offering superior optics and impact protection. 91% VLT.

GRAY VISORS
Primarily used for outdoor applications. Minimizes glare that can result in eye strain and fatigue. 18% VLT.

ANTI-FOG VISORS
Even in the most extreme environments, Gateway Safety's Anti-Fog coating helps minimize, or even eliminate, visor fogging.

GOLD MIRROR VISORS
Made with real gold that helps reflect heat.

IR FILTER VISORS
For use around light welding or light brazing/cutting.

VLT (Visual Light Transmittance) is the amount of visible light that gets through the lens.

All certification information is accurate as of the print date of this catalog. For updated information, visit Underwriters Laboratories 'Online Certifications Directory' at www.ul.com or contact Gateway Safety's customer service department at 800-822-5347.

All Gateway Safety products come with a limited warranty. See page 3 for warranty information.

VENOM®

Take the Bite Out of Harmful Environments. The award-winning Venom® design is a formidable, but economical, face protector.

- Sleek, contemporary style that offers complete protection from head to chin.
- Three-part adjustment system provides a custom, comfortable fit for all-day use.
- Rotating ratchet adjustment easily fits over the nape of the neck for a secure fit.

CAP ADAPTERS

Head And Face Protection... Combined. Cap Adapters facilitate the use of Venom™ visors and universal-fit visors with most hard hats.

- Slotted Di-Electric. Adapter is secured by blades that snap into certain hard hat slots.
- Standard Di-Electric. Secured by a durable strap, this adapter fits most hard hats.
- Aluminum. Secured by a coiled spring, this rugged adapter fits most hard hat brands.

Part # Description

680	Di-Electric Cap Adapter
681	Slotted Di-Electric Cap Adapter
682	Aluminum Cap Adapter

Cap adapters quickly turn standard safety helmets into versatile face protection.

Three-part comfort adjustment system makes Venom the brand to choose for long-wearing – or even all-day – applications.

HEAD PROTECTION
safety helmets

**HEAD PROTECTION
ICONS TO LOOK FOR**

In the Head Protection section of this catalog, you will find a pair of icons. Both icons pack a lot of information into a little bit of space. Don't take them lightly. When choosing personal protection, consider whether the 'mark' is appropriate for your application.

When you see the **Meets ANSI Z89.1 Type I Class E** icon, you know that this product has been independently tested and it meets the ANSI Z89.1 standard for Type I, Class E safety helmets.

When you see the **Independently Tested Z89.1 Type I Class C Only** icon, you know that Gateway Safety has had this product independently tested and it meets the ANSI Z89.1 standard for Type I, Class C safety helmets **ONLY**. Accordingly, it is conductive and should **NOT** be used whenever there is a risk of electrical conductivity.

Head Protection imprinting is available upon request. See page 34 for more information.

**SHELL SELECTION
PALETTE**

The color of your safety helmet can often mean something. It can identify your employees, their positions, or serve some other common-sense purpose. Whatever your purpose, whatever your job...Gateway Safety has the safety helmet color that's right for you.

HEARING PROTECTION ICONS TO LOOK FOR

Throughout the Hearing Protection section of this catalog, you will find a number of icons. Each icon packs a lot of information into a little bit of space. Don't take them lightly. When choosing personal protection, consider whether the 'mark' is appropriate for your application.

When you see this icon you know that this hearing protection has been independently tested in an accredited laboratory and obtained a noise reduction rating of 31.

When you see this icon you know that this hearing protection has been independently tested in an accredited laboratory and obtained a noise reduction rating of 28.

When you see this icon you know that this hearing protection has been independently tested in an accredited laboratory and obtained a noise reduction rating of 25.

INDEPENDENT TESTING IN ACCREDITED LABS

Historically, manufacturers of hearing protection devices have obtained their Noise Reduction Ratings (NRR) in an in-house laboratory setting. However, many safety experts stress the use of an independent, accredited laboratory to determine NRR data.

Gateway Safety has all of our hearing protection devices independently tested at an accredited laboratory. As a result, employers can provide our hearing protection devices with the confidence that Gateway Safety's NRR data is as accurate as possible and that this accuracy is verified by a non-biased, third-party source.

REGULATORY AGENCY RECOMMENDATIONS

According to the Occupational Safety and Health Administration, employers should provide hearing protection to their employees whenever noise exposure equals or exceeds an eight-hour, time-weighted, average sound level of 85 decibels. NIOSH recommends a 25% reduction for earmuffs, 50% for formable earplugs, and 70% for other plugs.

All certification information is accurate as of the print date of this catalog. For updated information, contact Gateway Safety's customer service department at 800-822-5347.

All Gateway Safety products come with a limited warranty. See page 3 for warranty information.

RESPIRATORY PROTECTION disposable respirators

RESPIRATORY PROTECTION ICONS TO LOOK FOR

In the Respiratory Protection section of this catalog, you will find a number of icons. Each icon packs a lot of information into a little bit of space. Don't take them lightly. When choosing personal protection, consider whether the "mark" is appropriate for your application.

When you see the **N95 NIOSH Approved** icon, you know that NIOSH regularly tests and certifies that this product provides 95% filtration against particulate aerosols free of oils below the Permissible Exposure Limit (PEL).

When you see the **N99 NIOSH Approved** icon, you know that NIOSH regularly tests and certifies that this product provides 99% filtration against particulate aerosols free of oils below the Permissible Exposure Limit (PEL).

When you see the **P100 NIOSH Approved** icon, you know that NIOSH regularly tests and certifies that this product provides 99.97% filtration against particulate aerosols below the Permissible Exposure Limit (PEL).

PEL is the Permissible Exposure Limit, as defined by OSHA.

All certification information is accurate as of the print date of this catalog. For updated information, contact Gateway Safety's customer service department at 800-822-5347.

All Gateway Safety products come with a limited warranty. See page 3 for warranty information.

PEAKFIT®

Finally, You and Your Mask Are a Perfect Fit. Revolutionary in design, PeakFit® was designed to provide user comfort and protection.

- A large molded shell, with a distinctive tiered design, helps amake breathing easier.
- Unique style that has no metal nosepiece to pinch and no metal staples that scratch.
- Integrated, one-piece cloth head strap that can be adjusted for a custom fit and seal.

80101	N95 Particulate Respirator 95% filtration against particulate aerosols free of oils below the PEL
80102V	N95 Particulate Respirator with Vent 95% filtration against particulate aerosols free of oils below the PEL

PRODUCT CUSTOMIZATION
imprinting & private labeling

PRODUCT CUSTOMIZATION

Gateway Safety manufactures safety products with a variety of product options, which enables our distribution partners to meet diverse customer preferences. This product breadth includes spectacles with unique frame and lens combinations as well as hard hats with very specific shell colors. Nevertheless, many customers may desire even more product customization. Gateway Safety is here to help.

PRODUCT IMPRINTING

Basic imprinting is an excellent, yet economical, way for distributors and end users to get their message out. For distributors who put their logo on the Gateway Safety products that they distribute, imprinting helps encourage customers to think of them first when it's time to reorder. For end users, it's an outstanding way to promote their brand and/or build enthusiasm for the company and its safety program.

SAFETY GLASSES IMPRINTING

One- or two-color imprinting is also available on most Gateway Safety glasses. There is a minimum order of one hundred (100) units per safety glass style, with a fifteen (15) business day lead-time on all imprinting orders.

SAFETY HELMETS IMPRINTING

One- or two-color imprinting is available on all Gateway Safety helmets. There's a minimum order of twenty (20) units per safety helmet style, with a fifteen (15) business day lead-time on all imprinting orders.

PRIVATE LABEL PRODUCTS

Large-volume users of Gateway Safety products have another customization option available – private label products.

With the purchase of significant quantities, Gateway Safety is able to produce safety products to the unique color scheme of its distributor partners. Combined with a company logo, these colorful, branded safety products will be a powerful addition to any product line or marketing program.

Offer safety products with your corporate logo and corporate colors!

For more information on product imprinting programs or to learn more about creating a line of private label products, contact Gateway Safety's customer service department at 800-822-5347.
