

Go Ahead And Stare...

At the Future of Head Protection.

Serpent
safety helmets

Your customers are fighting a fierce battle with employee compliance. We built so much comfort into the Serpent® safety helmet, *that* villain is contained.

Visit www.GatewaySafety.com

Sleek, stylish and comfortable protection.

Serpent will get noticed with a riveting snake-head-like shell design and is loaded with comfort features that will encourage compliance. It is durable protection, made of high density, polyethylene, yet is incredibly lightweight – just 13.1 ounces. A soft, cushioned brow pad helps absorb moisture. Available in 11 colors!

No more “pain in the assembly.”

Other hard hats come needing complete assembly. No problem, unless you have 20 or even 100 to build out. Or trust your team to handle it themselves? Hmmm. Serpent's 8-point, 6-strap suspension comes partially preinstalled! Plus, it's a true comfort system and provides exceptional impact absorption.
