

# ELLIPSE™

SAFETY  
EYEWEAR

## Weightlessness Inspires Compliance.

Gravity's got nothing on **Ellipse™** safety eyewear, which weighs just 19.3 grams and is one of the lightest safety glasses available.

**Ellipse** floats into a realm of never-before-seen comfort, providing a near weightless feel on the face and head for long-term wearability. At the same time, it offers grounded durability with exceptional impact protection. These safety glasses are independently certified by Underwriters Laboratory to meet ANSI Z87+, and meet the ballistic impact resistance requirements for eyewear in U.S. Military Performance Specification MIL PRF-32432 (GL).

Plus, **Ellipse** belongs to the Temple Technology® family, with longer temples that arc in a trajectory to perfectly orbit the head. The soft, elongated temples prevent pinching behind the ears, ensuring light years of comfort.

**Ellipse** is available in eight lens options, including **FX3™ Premium Anti-Fog**, which provides powerful, longer-lasting resistance to fogging in a variety of environments.

For the galaxy's lightest, most comfortable safety glasses, don't phone home. Phone (or email) Gateway Safety.

## ELLIPSE™ Features

- Weighing just 19.3 grams, this revolutionary safety eyewear is one of the lightest available.
- A Temple Technology® product, Ellipse's elongated, soft temples gently hold glasses in place without pinching or discomfort.
- Available in fX3™ Premium Anti-Fog — longer-lasting and more effective than current alternatives.
- Independently tested and certified by UL to meet ANSI Z87.1+ and CSA Z94.3 standards; meets the ballistic impact resistance requirements for eyewear in U.S. Military Performance Specification MIL PRF-32432 (GL).

With longer temples and ultralight weight, Ellipse™ delivers unmatched, all-day comfort for any job site.

## Ellipse™ Ordering Information

Part #	Temple	Lens	STD PKG
