

SWAP™

PROTECTIVE EYEWEAR

Fast Transformation. Heroic Protection.

Temples to head strap in seconds flat ... change your safety eyewear to meet your needs. That's how **Swap™** protective eyewear faces down any workplace peril. **Swap** is two products in one—a safety spectacle and a safety goggle. It comes with temples to use as glasses and a head strap to swap it to a goggle.

Durable protection needed? The **Swap** polycarbonate lens stands up to the toughest workplace archenemies with all-around impact protection that meets ANSI Z87.1+ and CSA Z94.3 standards. **Swap** also blocks more than 99.9% of UV-A, B, and C light.

Hazards abound? The Swap frame is lined with soft, smooth foam that blocks dust and debris. Venting channels minimize fogging for better visibility.

Comfort an issue? **Swap's** stylish two-color temples are rubberized for all-day comfort, and the head strap is fully adjustable to fit any size head.

Let **Swap's** dual identity work for you. Plus, get strong, comfortable safety eyewear... that's superhero protection!

Gateway
SAFETY

Two products in one, with temples for safety glasses and a head strap for safety goggles.

Soft, smooth foam lines the frame to block dust and debris. Venting channels help minimize fogging.
