

I NEED MY READING GLASSES, JUST FOR A SECOND...

Disaster can happen at any time. And when your employees remove their safety glasses to put on their non-safety bifocals to read or see fine details, they leave their eyes defenseless. At that very moment, an accident could happen.

Gateway Safety's MAG line of safety eyewear provides bifocal magnification in four different styles, all designed for lasting comfort. Whether you choose StarLite® MAG, Scorpion® MAG, Conqueror® MAG, or the new Swap® MAG, these glasses are the perfect leave-on combination of protection, comfort and a bifocal lens.

Try our bifocal MAG eyewear options today. For a **FREE** product sample: www.GatewaySafety.com

Diopters range from 1.0 to 3.0.
