

**Now Available from Gateway Safety!**

# Contra-Band™

## Hearing Band for Ultimate Convenience & Comfort

For workers who are changing from high to low noise environments, a hearing band can be an ideal solution. **Contra-Band** is a lightweight, comfortable hearing band that is worn under the chin. The soft, 'air bubble' plug tips provide maximum comfort, with an angled design that conforms to the ear canal and provides an optimal fit. Molded finger grips help with easy insertion. **Contra-Band** is also available in an MTEk™ metal detectable option.

**Made in USA**

The metal detectable Contra-Band version features MTEk™ plugs (metal-infused resin) and a metal detectable band.
