

ELLIPSE™
SAFETY
EYEWEAR

THE LIGHTWEIGHT CHAMPION

In this corner ... comfort, strength, and protection.

At just 19.3 grams, Ellipse™ offers extreme light weight. However, don't let the feathery comfort fool you. Ellipse is strong enough to meet the military performance specification*. Curved, no-pinch temples and longer temple tips keep eyewear in place with no slipping. A warning to workplace hazards — these safety glasses punch back.

*MIL PRF-32432 (GL) for ballistic impact resistance

TEMPLE
technology

These safety glasses are not intended for use during actual boxing or martial arts. We feel, however, that if you really need this warning, you may have spent too much time in the ring already.
