

Now Available from Gateway Safety!

SoftSeal™

The Highest Independently Tested NRR in Earplugs

SoftSeal™ disposable earplugs are just how they sound – easy to wear all day while providing a seriously high noise reduction rating. Made of a soft, smooth, polyurethane material, **SoftSeal** earplugs are extremely comfortable for a wide range of applications. A tapered shape makes the plugs easier to insert than traditional styles. Plus, purple colored plugs and a hi-viz limon cord make them hard to misplace and an easy compliance check for employers.

Also available in metal detectable versions, **SoftSeal MD** features metal detectable plugs, available with a standard cord or MTek™ metal detectable cord.
