Gateway SAFETY

## OUR MISSION: WORKER SAFETY

Of course, worker safety is at the heart of Gateway Safety's mission. There's nothing quite as inspiring as hearing the stories shared by users of Gateway Safety products. On the next page, you'll find a few real-life stories of people in situations where our products prevented a more serious injury or potentially saved a life. These success stories validate the commitment we have made to quality and make us proud of our product excellence.

## STARLITE® SAVES THE DAY

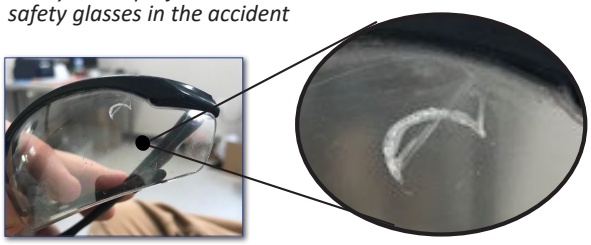

A professional logger and avid StarLite® user was working with a chainsaw in Alaska when suddenly, the chainsaw kicked back and struck him in the face. Though he needed stitches along his forehead and nose, in his words, his StarLite glasses "saved the day!"

## CUSTOMER GRATEFUL FOR CONQUEROR® QUALITY

*Heavy metal projectile that struck the safety glasses in the accident*

*Scratched lens, no penetration*

It was just another day in Mulberry, Florida for Jay when his longtime customer, Dirk, walked into his store. Dirk was excited about something, and Jay could tell he had a story to share.

"I just need to thank you for my eyesight!" Dirk exclaimed.

Jay was surprised and silenced by the comment, taking it in for a moment. Dirk went on to explain, "There was a mechanical failure on the job site today and an extremely heavy, and potentially deadly (or at a minimum life-altering) sharp piece of metal struck my Gateway Safety glasses at a high rate of speed."

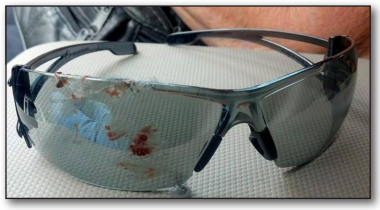

Fortunately, Dirk takes quality seriously, and was wearing his Gateway Safety Conqueror® safety glasses, a comfortable, popular style that has been independently tested and certified to pass the ANSI Z87.1+ high impact standard. Conqueror also meets the ballistic impact resistance requirements for eyewear in the U.S. Military Performance Specification MIL PRF-32432 (GL).

The Conqueror lens held true without breaking or shattering, while safely deflecting the projectile.

"Dirk was so animated while sharing this story that I have to admit, my adrenaline started flowing, and it made me feel like I was there," said Jay. "It really puts things in perspective to know without a doubt, that your safety glasses work as advertised. The Conqueror safety glasses either just saved our customer's life…or saved him a lifetime of eyesight! I know I'm glad I carry safety glasses that have the Gateway Safety stamp of quality for these real workplace situations."

## VARSITY® SURPASSES EXPECTATIONS

"I recently purchased a pair of your safety glasses (Varsity #278M). While riding my bike home, I was traveling at about 70 mph and a bird flying in the opposite direction hit me directly on the right eye of the safety glasses. The impact was so hard the bird exploded and it briefly caused me to black out. I woke, regained control of the bike and safely stopped.

The safety glasses stayed in place and protected me from very serious injury. They did not crack, split or in any way show damage from this impact. I truly do appreciate being alive to tell my story. I believe I am alive because of the protection I received by wearing these safety glasses. I must confess that my initial reason for purchasing these glasses was because of the very reasonable price. I was very pleased that these glasses far surpassed my expectations. These not only saved my eyesight but possibly my life." -Joseph H.

## ABOUT GATEWAY SAFETY

Gateway Safety

Family-owned since 1944, Gateway Safety is one of the most respected manufacturers of personal safety equipment in the United States. We design and produce 'above-the-shoulders' personal protective equipment, including eye, face, head, hearing and disposable respiratory protection.

Gateway Safety focuses on providing high-quality safety products that are stylish and comfortable, so workers will put them on and keep them on. Our entire team works hard to:

- Design and manufacture first-class, innovative safety products.
- Deliver unmatched, personal service and support to our partners.
- Keep our operating costs low to provide a great value to our customers.

These goals inspire our daily excellence in providing exceptional PPE backed by superior service. Gateway Safety is proud to be your reliable and long-term partner for industrial safety equipment.

### LEADING THE INDUSTRY

Gateway Safety takes its commitment to quality very seriously, producing products made with premium materials and verifying our quality with third-party testing programs. Few of our competitors can make this claim. We create innovative designs that address the needs of workers who wear safety equipment on a daily basis. Beyond serious protection, our designs incorporate the two key components of safety compliance: style and comfort. Many of our products are patent-protected, and we are proud to be recipients of numerous awards for product design and innovation.

### RECENT AWARD WINNERS:

- **SteelyBlues®** (New Product of the Year - Vision Protection)
- **Venom®** (New Product of the Year - Face Protection)
- **RibbonCandy®** (Readers' Choice Award - Eye Protection)
- **Silverton®** (Readers' Choice Award - Eye Protection)
- **TruAir® P100, Compact Model** (Readers' Choice Award - Respiratory Protection)
- **SoundOut® II** (New Product of the Year - Hearing Protection)

OH&S OCCUPATIONAL HEALTH & SAFETY NEW PRODUCT OF THE YEAR

# TASCO® Hearing Protection

TASCO, a market leader in hearing protection for nearly 50 years, is now part of the Gateway Safety family! Gateway Safety is very excited to bring TASCO products into our product family – including the industry-leading Tri-Grip® reusable earplug, top-performing SoftSeal® disposable earplug and the industry's benchmark line of 'Made in the USA' earmuffs. TASCO products feature patented designs, independently tested quality and superior comfort features - at value pricing - making TASCO a 'perfect fit' with Gateway Safety.

## TASCO History

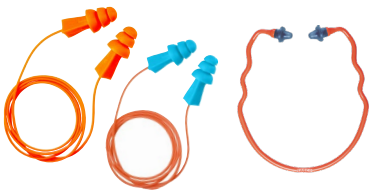

In 1975, Thomas A. Scanlon started TASCO in Rhode Island with just a few products – three earmuffs and one military earplug – along with a commitment to product development. Over the years, TASCO maintained a strong commitment to innovative product designs and high-quality manufacturing, and grew into a market leader in hearing protection solutions. When Tom's son, Sean, decided to retire, he trusted Gateway Safety to continue TASCO's legacy of manufacturing high-quality, well-designed products.

Check out the significantly expanded Hearing Protection section of this catalog on pages 14-21, which now includes several industry-leading products. Gateway Safety is thrilled to provide TASCO's top-quality products – combined with the same high level of service and support that Gateway Safety customers have come to expect.

# EXPERIENCE THE DIFFERENCE IN A DISTRIBUTION PARTNERSHIP WITH Gateway SAFETY

## PRODUCT INNOVATION

As the place **Where Safety Meets Style,** Gateway Safety invests significant time and resources into the design and development of our industrial safety products. We work hard to develop superior safety products that look better, fit better and achieve better compliance. Our most innovative product features are patented, and several products have received third-party awards for their unique designs that provide both style and comfort.

## PRODUCT QUALITY

Gateway Safety helps minimize your product liability risk. Although it's not required by OSHA, Gateway Safety goes the extra step with many of our safety products by implementing an independent, third-party testing program. This ensures that our products meet the appropriate safety standards.

## SUPERIOR CUSTOMER SERVICE

Gateway Safety customer service representatives are knowledgeable, friendly people who take pride in service and always "go the extra mile" to meet and exceed our partners' needs. Plus, over 99% of our orders ship accurately and completely - and within 24 hours.

**99+%**

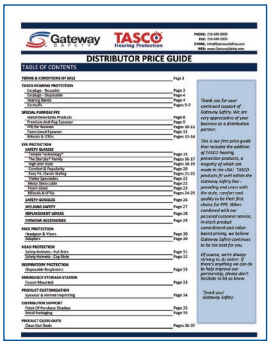

## HOW TO ORDER:

**Phone:** **216-889-2000**

**Email:** **Info@GatewaySafety.com**

## COST-EFFECTIVE PRICING

Gateway Safety products will help improve your bottom line. Unlike many of our competitors with high overhead costs and bloated marketing budgets, Gateway Safety focuses on keeping our costs low and creating as many operating efficiencies as possible. As a result, we can provide our distribution partners with quality, cost-effective products.

## CUSTOMIZED MARKETING TOOLS & PRODUCT DISPLAYS

Our distribution partners can take advantage of unique distributor marketing tools, including a sample kit program & custom flyer program. We also maintain a dynamic advertising plan that includes a high level of end-user marketing to assist our distribution customers with growing their businesses.

Product displays can be a valuable addition to a store or showroom. Gateway Safety offers 8-unit, 24-unit and 40-unit eyewear displays.

| Part # | Description |
|---|---|
| 531108 | 8-Unit Eyewear Display |
| 531124 | 24-Unit Eyewear Display |
| 531140 | 40-Unit Eyewear Display |

# PRODUCT IMPRINTING PROGRAMS

Basic imprinting is an excellent yet economical way for distributors and end users to get their message out. For distributors who put their logo on the Gateway Safety products that they distribute, imprinting helps encourage customers to think of them first when it's time to reorder. For end users, it's an outstanding way to promote their brand and/or build enthusiasm for their company and its safety program.

## REQUIREMENTS & LEAD TIMES

One- or two-color imprinting is available on most Gateway Safety products. Minimum quantities apply and lead times are required (typically 10-15 business days). Please contact Gateway Safety's customer service department for specific details and pricing on imprinting orders.

# PRIVATE LABEL PROGRAMS

Large-volume users of Gateway Safety products have another customization option available – private label products.

Gateway Safety is able to manufacture safety products tailored to the corporate color schemes of its distributor partners or end user customers. Combined with a company logo, these colorful, branded safety products will be a powerful addition to a distributor's product line or to an end user's corporate safety or marketing program.

For more information on product imprinting programs or to learn more about creating a line of private label products, contact Gateway Safety's customer service department at 216-889-2000 or info@GatewaySafety.com.

# STANDARDS & CERTIFICATIONS ICONS TO LOOK FOR IN THIS CATALOG

Throughout this catalog, you will find a number of icons associated with each product. Each icon packs a lot of information into a little bit of space. Don't take them lightly. When choosing personal protection, consider whether the "mark" is appropriate for your application.

## EYE & FACE PROTECTION ICONS

**ANSI Z87.1+ Certified:** Both Gateway Safety and an independent, third-party laboratory regularly test and certify that this product meets or exceeds the indicated ANSI Z87.1+ standard.

**CSA Z94.3 Certified:** Both Gateway Safety and an independent, third-party laboratory regularly test and certify that this product meets or exceeds the indicated CSA Z94.3 standard.

**Meets ANSI Z87.1+:** Gateway Safety regularly tests and certifies that this product meets or exceeds the indicated ANSI Z87.1+ standard.

**Meets ANSI Z87.1:** Gateway Safety regularly tests and certifies that this product meets the indicated ANSI Z87.1 standard.

**Meets CSA Z94.3:** Gateway Safety regularly tests and certifies that this product meets or exceeds the indicated CSA Z94.3 standard.

**Meets U.S. MIL Ballistics:** Gateway Safety tests and certifies that this product meets or exceeds the ballistic impact resistance requirements for eyewear in the U.S. Military Performance Specification MIL PRF-32432 (GL)-2013.

**UL Certified:** Underwriters Laboratories is the independent, third-party agency that has certified that this product meets the indicated ANSI Z87.1+ and/or CSA Z94.3 standards. Confirmation can be found in their Online Certifications Directory at www.ul.com.

**99.9% UV-A, UV-B and UV-C Protection:** Gateway Safety regularly tests and certifies that this product blocks 99.9% of UV-A, UV-B and UV-C radiation up to 380nm.

**fX³ Anti-Fog:** This product is available with our premium fog-fighter, which is longer-lasting and more effective than competing anti-fog products.

**MD:** This product is metal detectable.

**D3 - ANSI Certified:** Gateway Safety tests and certifies that this product meets the ANSI Z87.1 requirements for the D3 (splash/droplets) rating.

**D4 - ANSI Certified:** Gateway Safety tests and certifies that this product meets the ANSI Z87.1 requirements for the D4 (dust) rating.

## RESPIRATORY PROTECTION ICONS

**Independently NIOSH Certified:** NIOSH regularly tests and independently certifies this product to the designated filtration level under designated conditions.

**N95:** This product provides 95% filtration against particulate aerosols free of oils.

**N99:** This product provides 99% filtration against particulate aerosols free of oils.

**N100:** This product provides 99.97% filtration against particulate aerosols free of oils.

**R95:** This product provides 95% filtration against particulate aerosols and is somewhat resistant to oil.

**P100:** This product provides 99.97% filtration against particulate aerosols and is strongly resistant to oil.

## HEARING PROTECTION ICONS

**ANSI S3.19-1974 Independently Tested:** This hearing protection product has been independently tested in an accredited NVLAP-certified facility according to ANSI S3.19-1974.

**MD:** This product is metal detectable.

**Made in USA:** This product is made in the USA.

**NRR:** The **ANSI S3.19-1974 Independently Tested** icon will be followed by a Noise Reduction Rating (NRR) icon, which is the NRR determined by the independent testing facility.

22 NRR | 23 NRR | 24 NRR | 25 NRR | 26 NRR | 27 NRR | 28 NRR | 29 NRR | 30 NRR | 31 NRR | 33 NRR

Gateway Safety provides a wide range of NRR levels within the hearing protection family of products.

## HEAD PROTECTION ICONS

**Independently Tested - ANSI Z89.1 Type I Class E:** This product has been independently tested and it meets the ANSI Z89.1 standard for Type I, Class E, G and C safety helmets.

**Independently Tested - ANSI Z89.1 Type I Class C Only:** This product has been independently tested and it meets the ANSI Z89.1 standard for Type I, Class C only safety helmets. Accordingly, it is conductive and should not be used whenever there is a risk of electrical conductivity.

**Reverse Donning:** This helmet can be worn frontward or backward in accordance with the manufacturer's wearing instructions.

**Lower Temperature:** Meets all testing requirements of the ANSI Z89.1 standard when preconditioned at a temperature of -30°C (-22°F).

**Higher Temperature:** Meets all testing requirements of the ANSI Z89.1 standard when preconditioned at a temperature of 60°C (140°F).

**High Visibility:** Meets all testing requirements of the ANSI Z89.1 standard for high-visibility colors. This includes tests for chromaticity and luminance.

**Made in USA:** This product is made in the USA.

All certification information is accurate as of the print date on the back cover of this catalog. For updated information, contact Gateway Safety's customer service department at 216-889-2000.

All Gateway Safety products come with a limited warranty. Gateway Safety products are warranted to be free from manufacturing defects. Consult safety professionals, or refer to safety standards, for determination of the correct product for the use contemplated or the manner of such use. EXCEPT AS SET FORTH IN THE FIRST SENTENCE IN THIS PARAGRAPH, GATEWAY SAFETY MAKES NO EXPRESS WARRANTY WITH RESPECT TO ANY OF ITS PRODUCTS. GATEWAY SAFETY FURTHER DISCLAIMS ALL IMPLIED WARRANTIES, INCLUDING THE WARRANTY OF MERCHANTIBILITY AND THE IMPLIED WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE. This limited warranty shall not apply to any defects that have been caused by customer's failure to follow Gateway Safety's instructions; customer's abuse, misuse, negligence or error; or accident or actions of third parties and other events outside of Gateway Safety's control. Gateway Safety is not and shall not be liable for any incidental or consequential damages, and the exclusive remedy during the warranty period is limited to Gateway Safety repairing or replacing the defective product.

## METAL DETECTABLE PPE

The FDA recalls almost a hundred million food items every quarter. According to the U.S. Department of Agriculture, 'foreign material' (including PPE) found in food is the leading cause of food recalls. Gateway Safety has developed several safety products to address this issue impacting the food processing industry. Our revolutionary technology in metal detectable safety glasses and earplugs is setting a new standard for metal detectable PPE in this essential industry.

Metal detectable product!

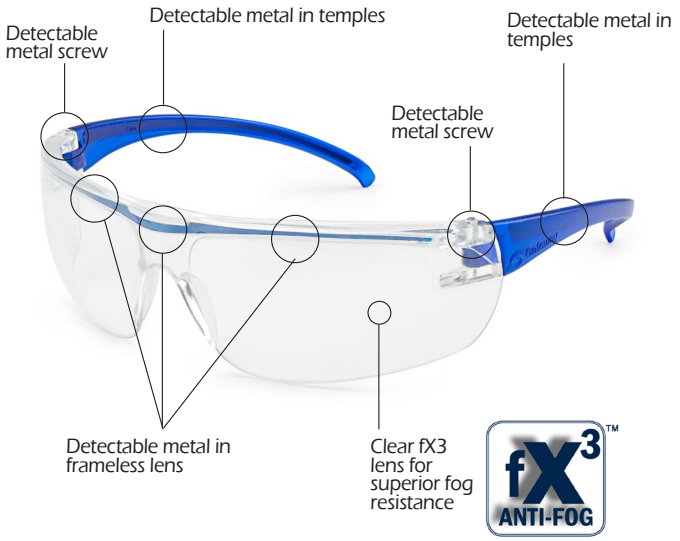

# STEELYBLUES® SAFETY GLASSES

Revolutionary in design, SteelyBlues provides patent-pending, end-to-end, component-level metal detectability.

## DISPOSABLE PARTICULATE RESPIRATORS

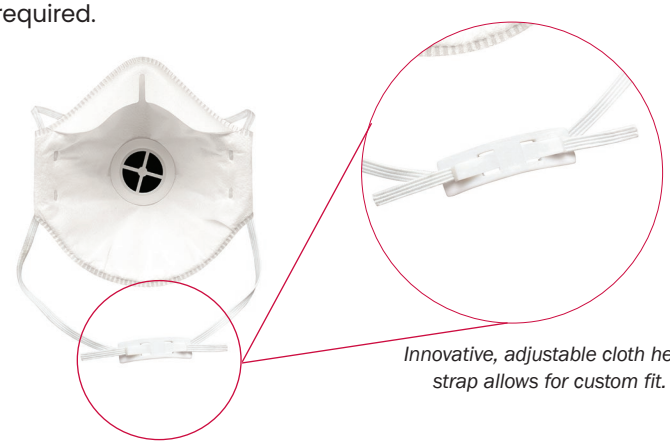

Gateway Safety's collection of NIOSH-approved respiratory products provide N95 to P100 levels of protection. These disposable particulate respirators are exceptionally comfortable and provide a much better value than competing NIOSH-certified products in the market.

# PEAKFIT®

The peak of safety and comfort in NIOSH-approved disposable respiratory protection, PeakFit® offers the perfect fit.

- Adjustable, one-piece cloth head strap is more durable and comfortable than conventional stapled versions.
- Molded nose bridge, with no metal nosepiece — no pinching required.

*Innovative, adjustable cloth head strap allows for custom fit.*

| Part # | Description |
|---|---|
| 80101 | N95 Particulate Respirator<br>95% filtration against particulate aerosols free of oils |

## HEADGEAR & VISORS

Gateway Safety's face protection products are known for their superior fit and comfort. From anti-fog to specialty visors for light welding and cutting, our face shields are tested for safety and quality, and designed to help increase compliance in a wide range of applications.

# VENOM®

Take the bite out of harmful environments with the award-winning Venom® face protection - now available in a yellow or black option!

- Contemporary, tapered visor design that offers complete protection from forehead to chin.
- Three-part adjustment system provides a custom, comfortable fit for all-day use.

*Three-part comfort adjustment system makes Venom the brand to choose for long-wearing or even all-day applications.*

# WOODSMAN™ FORESTRY SYSTEM

Mesh visors are part of the Woodsman forestry system, an integrated product package for forestry applications and environments that require head, hearing and face protection combined. See page 28 for part #s and ordering information for Woodsman.

## SAFETY HELMETS

Gateway Safety offers safety helmets for virtually every work environment, with customization and styling that can really make a positive difference for the wearer. From vented shells that allow heat to escape in hot working environments to electrical insulation. From soft brow pads to rotating ratchets. Our helmets have what it takes to give workers the right features and fit for daily wear.

### OPTIONAL TESTING

The ANSI Z89.1 head protection standard also includes four optional tests for safety helmets. Look for these marks on your safety helmet to determine if the manufacturer has taken these extra steps for enhanced user protection and comfort.

**Reverse Donning**: Helmets marked with a "reverse donning arrow" can be worn frontward or backward in accordance with the manufacturer's wearing instructions.

**Lower Temperature**: Helmets marked with an "LT" indicate that the hard hat meets all testing requirements of the standard when preconditioned at a temperature of -30°C (-22°F).

**Higher Temperature**: Helmets marked with an "HT" indicate that the hard hat meets all testing requirements of the standard when preconditioned at a temperature of 60°C (140°F).

**High Visibility**: Helmets marked with an "HV" indicate that the hard hat meets all testing requirements of the standard for high-visibility colors. This includes tests for chromaticity and luminance.

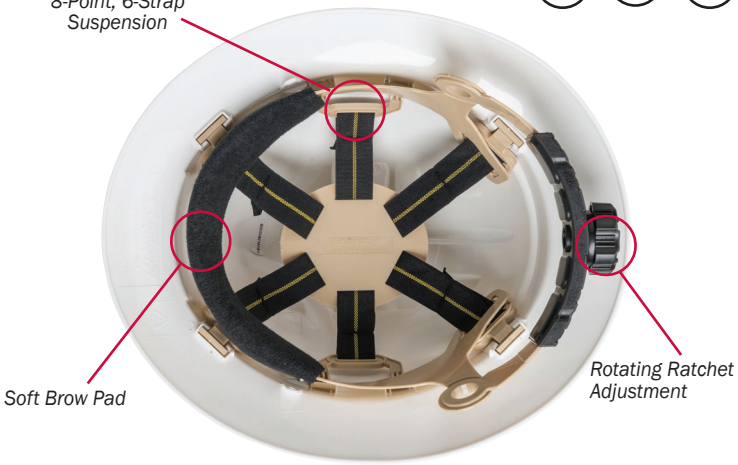

# SERPENT® FULL BRIM SAFETY HELMET

Ultra-comfortable safety helmet - vented or unvented - with a full brim to protect workers from the sun in all directions.

- High-density, yet lightweight polyethylene shell.
- Eight-point, six-strap nylon suspension is comfortable yet provides exceptional impact absorption.

# SAFETY HELMET IMPRINTING & PRIVATE LABEL PROGRAMS

Imprinting is an excellent yet economical way for distributors and end users to get their message out. For distributors who put their logo on the Gateway Safety products that they distribute, imprinting helps encourage customers to think of them first when it's time to reorder. For end users, it's an outstanding way to promote their brand and/or build enthusiasm for their company and its safety program. Imprint a Gateway Safety Serpent helmet on the front or sides with a company logo or message.

Large-volume users of Gateway Safety products have another customization option available – private label programs. For more information on product imprinting or on creating a line of private label products, contact Gateway Safety's customer service department at 216-889-2000 or info@GatewaySafety.com.

# LENS SELECTION GUIDE

More than ornamental, Gateway Safety lens options serve a specific function. This lens selection chart provides a general guideline for use. However, always consult your safety director to determine the proper lens option for each application. Unless otherwise noted, all Gateway Safety lenses feature an anti-scratch coating for extra durability and block 99.9% of UV-A, UV-B and UV-C light, up to 380nm.

These untinted lenses are ideal for indoor and general-purpose applications.

Clear, VLT 92%

These lenses provide a significant level of contrast, particularly in low-light applications.

Amber VLT 89% | Pacific Blue VLT 62% | Orange VLT 50% | Vermilion VLT 50%

These tinted lenses significantly reduce bright light to minimize eye strain and fatigue.

Gray VLT 14% | Mocha VLT 23%

These lenses reflect some bright light while allowing a moderate amount of light through the lens.

Clear In/ Out Mirror VLT 50% | Bronze Mirror VLT 50% | Pink Mirror VLT 37%

This lens helps reduce blue light exposure, which can lead to a phenomenon called “Blue Blur”.

Blue Light Filter VLT 19%

These mirrored lenses significantly reflect bright light to reduce eye strain and fatigue.

Red Mirror VLT 14% | Mocha Mirror VLT 14% | Gold Mirror VLT 14% | 24K Gold Mirror VLT 14% | Silver Mirror VLT 23%

Blue Mirror VLT 23% | Sunset Red Mirror VLT 14% | Horizon Blue Mirror VLT 14% | Iridescent Green Mirror VLT 14% | Sterling Silver VLT 23%

Polarized lenses reduce glare from reflected light and minimize eye strain.

Gray Polarized VLT 14%

IR filter lenses are for use around light welding, brazing or cutting applications only.

IR Filter Shade 3.0 VLT 12% | IR Filter Shade 5.0 VLT 2%

*Note: VLT (Visual Light Transmittance) is the amount of visible light (+/- 2%) that passes through the lens.*

# EYEWEAR IMPRINTING & PRIVATE LABEL PROGRAMS

Imprinting is an excellent yet economical way for distributors and end users to get their message out. For distributors who put their logo on the Gateway Safety products, imprinting helps encourage customers to think of them first when it’s time to reorder. For end users, it’s an outstanding way to promote their brand and/or build enthusiasm for their company and its safety program. Logo Gateway Safety glasses on the lens or temples!

Large-volume users of Gateway Safety products have other customization options available – private label programs with imprinted logos or brands, painted frames or temples, and/or products molded in selected colors. For more information on product imprinting or creating a line of private label products, contact Gateway Safety at 216-889-2000 or info@GatewaySafety.com.

# EYE PROTECTION: FX3™ PREMIUM ANTI-FOG

fX3™ ANTI-FOG

## Testing & Performance

fX3™ premium anti-fog has been tested in accordance with the ANSI Z87.1-2020 optional test for anti-fog. Test products were also subjected to steam and wipe tests for extended periods to simulate humid working conditions. **Testing shows that fX3 lenses stay fog free for more than 7 times the ANSI standard requirement, and more than 30 times the effectiveness of "anti-fog" products from other manufacturers.**

## PREMIUM ANTI-FOG...THAT REALLY WORKS

Foggy lenses are a major complaint from workers wearing safety eyewear and a frequent reason for non-compliance. Workers who remove their safety eyewear to wipe fogged lenses expose themselves to serious eye injury. That's why Gateway Safety offers fX3™ premium anti-fog for extremely challenging environmental conditions. Gateway Safety's fX3™ coating performs better, lasts longer and provides greater scratch resistance than other 'anti-fog' products in the market.

| | Generation 1<br>COMPETITOR'S ANTI-FOG | Generation 2<br>fX2 ANTI-FOG | Generation 3<br>fX3 PREMIUM ANTI-FOG |
|---|---|---|---|
| **ANSI X TEST - 8 seconds**<br>(50°C water with conditioning) | Fogged after 1-2 seconds | Fogged after 3-6 seconds | No fogging, over 60 seconds |
| **STEAM TEST - 30 minutes**<br>(80°C water without conditioning) | Fogged after 1 minute | No fogging | No fogging |
| **WIPE TEST - 30 wipes** | Fogged after 1-2 wipes | Fogged after 7 wipes | After 30 wipes, no fogging |

fX3™ ANTI-FOG

# STEELYBLUES® SAFETY GLASSES

Revolutionary in design, SteelyBlues provides patent-pending, end-to-end, component-level metal detectability, ideal for the food processing industry.

## THE ORIGINAL – STILL THE BEST!

Gateway Safety's StarLite® style revolutionized the industry. The traditional large and boxy safety glasses were no match for StarLite's lightweight, modern design. StarLite quickly changed the industry and now has MAGs, foam-lined, Gumballs and fX3 versions in this benchmark line. Plus, all products in the StarLite family are independently UL-tested, a quality-assurance step that most competitors skip.

# STARLITE®

Still the one. The original. The best. Popular, innovative design combines low-cost protective eyewear with all-around impact protection.

- Sleek, compact appearance and stylish unitary lens provides a wide field of vision.
- Ultra-lightweight design is easy to wear all day.

# VARSITY®

The first string in comfortable, stylish safety eyewear. Varsity is a winner in any work arena.

- Unique "V"-shaped temple design for a one-of-a-kind look.
- Soft, adjustable nosepiece reduces slippage and fits a wide range of faces.

## HIGH-END STYLE

Safety glasses don't have to look like safety glasses. Adding sophisticated styling can help improve compliance, encouraging workers to wear their safety glasses off the job too. And you'll still get the same exceptional level of quality you've come to expect from Gateway Safety products. These products are designed to reflect upscale eyewear styles - but without the high-end price.

*Tortoise Shell Frame*

## WHY POLARIZED?

4X4® Polarized is ideal for workers who face daily glare from light bouncing off flat, reflective surfaces such as the hood of a vehicle, a paved roadway, or even the surface of water.

*Without Polarized Lenses*

*With Polarized Lenses*

## EASY FIT, CLASSIC STYLING

Faces come in all shapes and sizes. That's why Gateway Safety offers multiple eye protection styles with features to ensure a more custom fit. These products offer adjustment options and the more traditional lens design, helping to create some of our longest-lasting style trends in eyewear.

# SCORPION®

Loaded with features, Scorpion offers the striking combination of style, comfort and safety, with a breakaway retainer included with each pair.

- Adjustable length and ratcheting temples for custom fit.
- Vent between frame and lens minimizes fogging.

# HAWK®

With a sleek, swooping style, Hawk offers durable wraparound impact protection in the workplace.

- Frameless, one-piece "winged" lens design offers extra side protection.
- Adjustable temples with grip-tight dots prevent slippage.

# STROBE™

With a traditional look, Strobe is a cost-effective safety eyewear solution that still offers serious protection!

- Large integrated side shields provide all-around protection.
- Rugged yet lightweight, with adjustable temples for maximum comfort.

| Part # | Frame | Lens |
|---|---|---|
| 49GB80 | Black | Clear |
| 49GB83 | Black | Gray |
| 49GB79 | Black | Clear fX2™ Anti-Fog |
| 49GB7M | Black | Gold Mirror |
| 49RB80 | Blue | Clear |
| 49RB83 | Blue | Gray |
| 49US80 | Freedom | Clear |

*Strobe is also available in an IR lens. See pg. 50.*

# EYE PROTECTION: FOAM-LINED FAVORITES

## FOAM-LINED SAFETY GLASSES

Eye injuries can also be caused by smaller particles, and Gateway Safety manufactures these specialty foam-lined products to provide extra protection from airborne dirt and debris. Our foam-lined safety glasses provide goggle-like protection along with the comfort and convenience offered by safety glasses.

*Easy conversion from glasses to goggles.*

## SWAP®

Glasses to goggles in just a snap. Swap® provides two products in one to meet different workplace needs.

- Temples and head strap included, which can be switched out with the simple push of a button.
- Foam-lined frame helps block dust and debris.

fX3™ ANTI-FOG

| Part # | Frame | Lens |
|---|---|---|
| 21GB80 | Black | Clear |
| 21GB79 | Black | Clear fX2™ Anti-Fog |
| 21GB78 | Black | Gray fX2™ Anti-Fog |
| 21GB88 | Black | Amber fX2™ Anti-Fog |
| 21GB0F | Black | Clear In/Out Mirror fX2™ Anti-Fog |
| 21GB9F | Black | Blue Mirror fX2™ Anti-Fog |
| 21GBX9 | Black | Clear fX3™ Premium Anti-Fog |
| 21GBX8 | Black | Gray fX3™ Premium Anti-Fog |

UL CERTIFIED · ANSI Z87.1+ CERTIFIED · CSA Z94.3 CERTIFIED · MEETS U.S. MIL BALLISTICS · 99.99% UV-A, B & C PROTECTION

## SWAP® MAG

The same exceptional features as the original Swap, with a bifocal for seeing small print and details.

| Part # | Frame | Lens | Magnification |
|---|---|---|---|
| 21MA15 | Black | Clear fX2™ Anti-Fog | 1.5 Diopter |
| 21MA20 | Black | Clear fX2™ Anti-Fog | 2.0 Diopter |
| 21MA25 | Black | Clear fX2™ Anti-Fog | 2.5 Diopter |
| 21MB15 | Black | Gray fX2™ Anti-Fog | 1.5 Diopter |
| 21MB20 | Black | Gray fX2™ Anti-Fog | 2.0 Diopter |
| 21MB25 | Black | Gray fX2™ Anti-Fog | 2.5 Diopter |

## SILVERTON®

With a sleek industrial design, Silverton delivers two versions of foam-lined protection – either with temples or a head strap – for the dustiest environments.

- OptiFit™ foam lining tapers for a better seal.
- Two options: choose with temples for the versatility of a spectacle, or the adjustable strap version for a more goggle-like fit.

OptiFit™
*Foam height increases near the edge of the lens, creating a more custom fit and seal.*

| Part # | Frame | Temples or Strap | Lens |
|---|---|---|---|
| 22GY80 | Gray | Temples | Clear |
| 22GY79 | Gray | Temples | Clear fX2™ Anti-Fog |
| 22GY78 | Gray | Temples | Gray fX2™ Anti-Fog |
| 22GY0F | Gray | Temples | Clear In/Out Mirror fX2™ Anti-Fog |
| 22ST79 | Gray | Strap | Clear fX2™ Anti-Fog |
| 22ST78 | Gray | Strap | Gray fX2™ Anti-Fog |

UL CERTIFIED · ANSI Z87.1+ CERTIFIED · CSA Z94.3 CERTIFIED · MEETS U.S. MIL BALLISTICS · 99.99% UV-A, B & C PROTECTION

## STARLITE® FOAMPRO®

The original StarLite design, with an all-around, closed-cell foam to block dirt and debris.

- OptiFit™ foam lining tapers for a better seal.
- Light gray foam color prevents 'racoon-eye' look.

OptiFit™
*Foam height increases near the edge of the lens, creating a more custom fit and seal.*

| Part # | Temples | Lens |
|---|---|---|
| 46FP79 | Clear | Clear fX2™ Anti-Fog |
| 46FP78 | Gray | Gray fX2™ Anti-Fog |
| 46FP88 | Amber | Amber fX2™ Anti-Fog |

UL CERTIFIED · ANSI Z87.1+ CERTIFIED · CSA Z94.3 CERTIFIED · MEETS U.S. MIL BALLISTICS · 99.99% UV-A, B & C PROTECTION

## STARLITE® FOAMPRO® MAG

NEW!

The same great features as FOAMPRO, with a built-in lower bifocal.

*Bifocal helps to see small details.*

| Part # | Temples | Lens | Magnification |
|---|---|---|---|
| 46MF15 | Clear | Clear fX2™ Anti-Fog | 1.5 Diopter |
| 46MF20 | Clear | Clear fX2™ Anti-Fog | 2.0 Diopter |
| 46MF25 | Clear | Clear fX2™ Anti-Fog | 2.5 Diopter |

## STARLITE® FOAM

The original StarLite design, with soft foam along the top of the lens to block falling dust and debris.

| Part # | Temples | Lens |
|---|---|---|
| 46FM79 | Clear | Clear fX2™ Anti-Fog |
| 46FM78 | Gray | Gray fX2™ Anti-Fog |

## BIFOCAL EYE SAFETY

It's a fact that the American workforce is getting older, and many workers, as they age, begin to experience reduced visual capacity. For those same workers who require eye protection on the job yet need to see things up close, bifocal safety eyewear is an ideal solution. Gateway Safety offers a selection of bifocal eye protection in several popular styles that allow workers to read or see small parts more clearly, without removing their safety eyewear.

*Bifocal magnifies small details.*

# STARLITE® MAG

Always in focus. The same great design as the original StarLite, with built-in bifocal magnification.

- Large selection of diopter strengths and lens options available.
- Incredibly light, weighing less than one ounce.

| Part # | Temple | Lens | Magnification |
|---|---|---|---|
| 46MC10 | Clear | Clear | 1.0 Diopter |
| 46MC15 | Clear | Clear | 1.5 Diopter |
| 46MC20 | Clear | Clear | 2.0 Diopter |
| 46MC25 | Clear | Clear | 2.5 Diopter |

| 46MC99 | Clear | Clear | Multi-pack* |

**Multi-pack includes two of each diopter: 1.0, 1.5, 2.0, 2.5 & 3.0*

UL CERTIFIED · ANSI Z87.1+ CERTIFIED · CSA Z94.3 CERTIFIED · MEETS U.S. MIL BALLISTICS · 99.99% UV-A, B & C PROTECTION

# STARLITE® FOAMPRO® MAG

Same popular design as the original StarLite MAG, with OptiFit™ foam technology to block dirt and debris.

| Part # | Temple | Lens | Magnification |
|---|---|---|---|
| 46MF15 | Clear | Clear fX2™ Anti-Fog | 1.5 Diopter |
| 46MF20 | Clear | Clear fX2™ Anti-Fog | 2.0 Diopter |
| 46MF25 | Clear | Clear fX2™ Anti-Fog | 2.5 Diopter |

NEW!

## CONQUEROR® MAG

With the same commanding presence as the original Conqueror®, with a lower built-in bifocal.

- A soft rubber nosepiece and ergonomic, contoured temple tips for all-day wear.
- Adjustable-length eyewear retainer included with each pair.

| Part # | Frame | Lens | Magnification |
|---|---|---|---|
| 28MC10 | Black | Clear | 1.0 Diopter |
| 28MC15 | Black | Clear | 1.5 Diopter |
| 28MC20 | Black | Clear | 2.0 Diopter |
| 28MC25 | Black | Clear | 2.5 Diopter |
| 28MC30 | Black | Clear | 3.0 Diopter |
| 28MG15 | Black | Gray | 1.5 Diopter |
| 28MG20 | Black | Gray | 2.0 Diopter |
| 28MG25 | Black | Gray | 2.5 Diopter |

## SCORPION® MAG

Loaded with custom features like the original Scorpion, with built-in bifocal magnification!

- Adjustable-length, ratcheting temples for custom fit.
- Free "Scorpion's Tail" retainer helps prevent loss and damage.

| Part # | Frame | Lens | Magnification |
|---|---|---|---|
| 16MC10 | Black | Clear | 1.0 Diopter |
| 16MC15 | Black | Clear | 1.5 Diopter |
| 16MC20 | Black | Clear | 2.0 Diopter |
| 16MC25 | Black | Clear | 2.5 Diopter |
| 16MC30 | Black | Clear | 3.0 Diopter |
| 16MG10 | Black | Gray | 1.0 Diopter |
| 16MG15 | Black | Gray | 1.5 Diopter |
| 16MG20 | Black | Gray | 2.0 Diopter |
| 16MG25 | Black | Gray | 2.5 Diopter |

## SWAP® MAG

Providing foam-lined, anti-fog protection in either a spectacle or a goggle — now with a bifocal lens!

- Change out the temples and head strap with the simple push of a button.
- Venting channels in the foam help minimize fogging.

| Part # | Frame | Lens | Magnification |
|---|---|---|---|
| 21MA15 | Black/Foam Edge | Clear fX2™ Anti-Fog | 1.5 Diopter |
| 21MA20 | Black/Foam Edge | Clear fX2™ Anti-Fog | 2.0 Diopter |
| 21MA25 | Black/Foam Edge | Clear fX2™ Anti-Fog | 2.5 Diopter |
| 21MB15 | Black/Foam Edge | Gray fX2™ Anti-Fog | 1.5 Diopter |
| 21MB20 | Black/Foam Edge | Gray fX2™ Anti-Fog | 2.0 Diopter |
| 21MB25 | Black/Foam Edge | Gray fX2™ Anti-Fog | 2.5 Diopter |

# EYE PROTECTION: OVER-THE-GLASSES & VISITOR SPECS

## OVER-THE-GLASSES

Many workers who need industrial eye protection also wear corrective lenses, and prescription safety eyewear can be a costly option for employers. Over-the-glasses (OTG) eye protection is an alternative solution for employers who want a cost-effective product that still provides durable eye protection for those who wear prescription glasses.

## VISITOR SPECTACLES

The classic Utility VS is an uncoated, economical solution for plant guests who need one-time use eye protection. Available in a convenient dispenser box that can be hung on a plant wall!

## COVER2®

A contemporary OTG solution.

- Lightweight, compact design that still fits over most prescription glasses.
- Flexible, adjustable length temples for a comfortable, custom fit.

| Part # | Temples | Lens |
|---|---|---|
| 6980 | Black | Clear |
| 6983 | Black | Gray |

*Cover2 is also available in an IR lens. See pg. 50.*

UL CERTIFIED · ANSI CERTIFIED Z87.1+ · CSA CERTIFIED Z94.3 · MEETS U.S. MIL BALLISTICS · 99.99% UV-A, B & C PROTECTION

## COVERALLS®

Traditional style OTG eye protection.

- Large lens design provides wide field of vision, while fitting over nearly all prescription glasses.
- Adjustable-length, ratcheting temples for custom fit.

MEETS ANSI Z87.1+ · 99.99% UV-A, B & C PROTECTION

| Part # | Frame | Lens |
|---|---|---|
| 6880 | Black | Clear |
| 6883 | Black | Gray |
| 6875 | Black | Amber |

## UTILITY™ VS

The economical solution for plant visitors.

- Large lens design for panoramic view.
- Vented side shields help minimize fogging.

| Part # | Temples | Lens |
|---|---|---|
| 5880 | Clear | Clear/Uncoated |
| 5883 | Gray | Gray/Uncoated |
| 5880B | Clear | Clear/Uncoated/BULK Pack |

MEETS ANSI Z87.1+ · MEETS CSA Z94.3 · 99.99% UV-A, B & C PROTECTION

## KLEEN VIEW®

Anti-fog, anti-static lens cleaning formula that helps extend the life of eyewear.

- Spray solution packaged with soft, non-abrasive tissues.
- Single-use towelettes for quick lens cleaning in a convenient dispenser box.

| Part # | Description |
|---|---|
| 551 | Disposable Lens Cleaning Station<br>8 oz. Bottle of Solution/600 Tissues |
| 552 | Lens Cleaning Towelettes<br>100 Individually Sealed Towelettes |

## SIDE SHIELDS

To add side protection to traditional prescription and non-prescription eyewear.

| Part # | Description |
|---|---|
| US1 | Clear Clip-On |
| AT1 | Clear Slip-On |
| AT7 | Clear Slip-On Spec-Shields® |

## EYEWEAR RETAINERS

These products attach to various temple sizes to help extend the life of eyewear. Breakaway safety feature included.

### GIZMO™

Adjustable toggle and 100% cotton materal. Fits narrow temples.

| Part # | Description | Breakaway |
|---|---|---|
| 430 | Black | QuikPop™ |
| 431 | Red | QuikPop™ |
| 432 | Navy Blue | QuikPop™ |
| 434 | Gray | QuikPop™ |

### DOODADZ™

Popular, cost-effective solution in nylon/polyester blend. Fits most temples.

| Part # | Description | Breakaway |
|---|---|---|
| 420 | Black | QuikRelease™ |
| 421 | Red | QuikRelease™ |
| 422 | Navy Blue | QuikRelease™ |
| 424 | Gray | QuikRelease™ |

### CORDZ™

Versatile loop-tip retainer that can be worn with nearly all temples.

| Part # | Description | Breakaway |
|---|---|---|
| 400 | Black | QuikPop™ |
| 402 | Navy Blue | QuikPop™ |
| 407 | Red | QuikPop™ |
| 414 | Gray | QuikPop™ |
| 415 | Hunter Green | QuikPop™ |
| 416 | Hi-Viz Orange | QuikPop™ |
| 417 | Freedom | QuikPop™ |

## KLEEN EYES® II

Emergency eyewash station with adjustable fountain tips, 2" apart.

| Part # | Description |
|---|---|
| KKE20 | Emergency Eyewash Station |

## FLIP-UPS™

Attach to traditional clear eyewear for different job environments.

| Part # | Description |
|---|---|
| G2 | Gray/Polarized |
| G4 | IR Filter Shade 5.0 |

## EYEWEAR CASE

Helps extend the life of safety eyewear by protecting glasses when not in use.

| Part # | Description |
|---|---|
| C8000 | Nylon Case with Drawstring |

## IMPACT & SPLASH GOGGLES

For those who need protection from impact, plus liquid splashes and debris, safety goggles are the optimal solution. Gateway Safety provides traditional goggle styles that fit over most prescription glasses, as well as more modern, lightweight safety goggle options.

# WHEELZ®

Contemporary goggle protection for those who work hard.

- Lightweight goggle is more compact and stylish compared to traditional, bulky goggle styles.
- Adjustable head strap available in cloth version or NextGen™ Neoprene for better chemical resistance.

| Part # | Frame | Lens | Head Strap |
|---|---|---|---|
| 45080 | Clear | Clear | Cloth |
| 45883 | Black | Gray | Cloth |
| 45079 | Clear | Clear fX2™ Anti-Fog | Cloth |
| 45878 | Black | Gray fX2™ Anti-Fog | Cloth |
| 4588M | Black | Silver Mirror | Cloth |
| 4589M | Black | Blue Mirror | Cloth |
| 4588F | Black | Silver Mirror fX2™ Anti-Fog | Cloth |
| 4589F | Black | Blue Mirror fX2™ Anti-Fog | Cloth |
| 450NX9 | Clear | Clear fX3 Premium Anti-Fog | NextGen™ Neoprene |

*Wheelz is also available in an IR lens. See pg. 51.*

UL CERTIFIED · ANSI Z87.1+ CERTIFIED · CSA Z94.3 CERTIFIED · ANSI D3 CERTIFIED · ANSI D4 CERTIFIED

99.99% UV-A, B & C PROTECTION

# WHEELZ® FOAM

Same popular design as the original Wheelz®, with a soft foam lining to help block dust and debris.

| Part # | Frame | Lens | Head Strap |
|---|---|---|---|
| 4589P | Black/Foam Edge | Clear fX2™ Anti-Fog | Cloth |
| 4588P | Black/Foam Edge | Gray fX2™ Anti-Fog | Cloth |

## BIGSUR®

A large profile goggle with a revolutionary NextGen™ Neoprene head strap.

- Fits over most prescription glasses.
- Adjustable NextGen™ Neoprene strap provides chemical resistance, but doesn't snag the hair like traditional neoprene straps.

| Part # | Frame | Lens | Head Strap |
|---|---|---|---|
| 250NX9 | Clear | Clear fX3™ Premium Anti-Fog | NextGen™ Neoprene |

99.99% UV-A, B & C PROTECTION

## CYCLONE®

Premium splash or impact goggle.

- Wide viewing area and adjustable head strap.
- Unique, removable vent inserts help with air circulation when removed and provide splash protection when inserted.

| Part # | Frame | Lens | Head Strap |
|---|---|---|---|
| 40212 | Clear | Clear fX2™ Anti-Fog | Cloth |

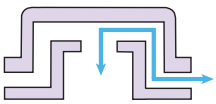

99.99% UV-A, B & C PROTECTION

## TECHNICIAN™ SPLASH

A classic, economical splash goggle. With cap style or unique 390 venting systems for reliable splash protection.

390 Venting System

99.99% UV-A, B & C PROTECTION

| Part # | Frame/Vents | Lens | Head Strap |
|---|---|---|---|
| 32061 | Clear/Cap Vents | Clear/Uncoated | Cloth |
| 32062 | Clear/Cap Vents | Clear/fX2™ Anti-Fog | Cloth |
| 32391 | Clear/390 Cap Vents | Clear/Uncoated | Cloth |
| 32392 | Clear/390 Cap Vents | Clear/fX2™ Anti-Fog | Cloth |

## TECHNICIAN™ IMPACT

A traditionally designed impact goggle. With perforated vents to help fight fogging.

99.99% UV-A, B & C PROTECTION

| Part # | Frame/Vents | Lens | Head Strap |
|---|---|---|---|
| 32021 | Clear/Perforated | Clear/Uncoated | Cloth |
| 32022 | Clear/Perforated | Clear/fX2™ Anti-Fog | Cloth |

## WELDING SAFETY EYEWEAR

Employees whose work exposes them to radiant energy or light radiation need special eye protection. Gateway Safety provides light welding protection in the form of IR safety glasses and goggles. Be sure to note the IR filter shade level needed for a particular environment or application.

Welding face shields are also available. See page 24 for more information on Venom face protection.

## STARLITE® IR

Still the one. The original StarLite design with all-around impact protection in IR Filter Shades 3.0 and 5.0.

| Part # | Temples | Lens |
|---|---|---|
| 4664 | Black | IR Filter Shade 3.0 |
| 4666 | Black | IR Filter Shade 5.0 |

UL CERTIFIED · ANSI Z87.1+ CERTIFIED · 99.99% UV-A, B & C PROTECTION

## CONQUEROR® IR

| Part # | Frame | Lens |
|---|---|---|
| 28GB66 | Black | IR Filter Shade 5.0 |

Triumph over workplace hazards with the same popular style as the original Conqueror, with an IR Filter Shade 5.0 lens.

UL CERTIFIED · ANSI Z87.1+ CERTIFIED · 99.99% UV-A, B & C PROTECTION

## COVER2® IR

The contemporary OTG solution in an IR Filter Shade 5.0 lens.

| Part # | Temples | Lens |
|---|---|---|
| 6966 | Black | IR Filter Shade 5.0 |

UL CERTIFIED · ANSI Z87.1+ CERTIFIED · CSA Z94.3 CERTIFIED · 99.99% UV-A, B & C PROTECTION

## STROBE® IR

The traditional, cost-effective option in IR Filter Shades 3.0 & 5.0.

| Part # | Frame | Lens |
|---|---|---|
| 49GB64 | Black | IR Filter Shade 3.0 |
| 49GB66 | Black | IR Filter Shade 5.0 |

MEETS ANSI Z87.1+ · MEETS CSA Z94.3 · 99.99% UV-A, B & C PROTECTION

# WHEELZ® IR

The contemporary Wheelz goggle - lightweight and compact - with IR Filter lens options.

| Part # | Frame | Lens |
|---|---|---|
| 45564 | Green | IR Filter Shade 3.0 |
| 45566 | Green | IR Filter Shade 5.0 |

99.99% UV-A, B & C PROTECTION

# TRADITIONAL STYLE GOGGLES

Classic, soft-frame welding goggles available in a lift-front or stationary-front option.

99.99% UV-A, B & C PROTECTION

| Part # | Frame | Lens |
|---|---|---|
| 1710U50 | Green | 2 x 4-1/4" Cover/Lift Front/Shade 5.0 |
| 1775U50 | Green | 2 x 4-1/4" Cover/Stationary Front/Shade 5.0 |

# CUP GOGGLES

Classic, 50mm rigid-cup goggles in clear and Shade 5.0 welding lens options.

| Part # | Frame | Lens |
|---|---|---|
| 36U50 | Green | 50mm Cup/Shade 5.0 |
| 351P0 | Green | 50mm Cup/Clear |

99.99% UV-A, B & C PROTECTION

# REPLACEMENT LENSES

Gateway Safety polycarbonate filter and safety lenses have been tested and certified to meet the high-mass and high-velocity impact tests of ANSI Z87.1+ and CSA Z94.3 standards when properly installed in Gateway Safety goggles.

## IR FILTER LENSES

Provide limited infrared filtration during welding applications.

| Part # | Size | Lens |
|---|---|---|
| 50U _ _ | 50mm | Shades 4-6 |
| 24U _ _ | 2 x 4-1/4" | Shades 4-6, 8-12 |
| 45U _ _ | 4-1/2 x 5-1/4" | Shades 8-12 |

## COVER/SAFETY LENSES

Provide limited impact protection for welding applications.

| Part # | Size | Lens |
|---|---|---|
| 50U01 | 50mm/.060" Thick | Clear |
| 24U01 | 2 x 4-1/4"/.060" Thick | Clear |
| 45U01 | 4-1/2 x 5-1/4"/.060" Thick | Clear |

## GOLD-COATED IR FILTER LENSES

Provide exceptional heat deflection, resulting in a better field of vision.

| Part # | Size | Lens |
|---|---|---|
| 24G _ _ | 2 x 4-1/4" | Shades 8-12 |
| 45G _ _ | 4-1/2 x 5-1/4" | Shades 8-12 |

## MAGNIFYING LENSES

Provide magnified vision, which reduces eye fatigue and discomfort.

| Part # | Size | Lens |
|---|---|---|
| CPM _ _ _ | 2 x 4-1/4" | Clear/See Diopter Options |

Diopters: 0.75/1.00/1.25/1.50/1.75/2.00/2.25/2.50

## CHIPPING LENSES

Provide limited impact protection for chipping applications.

| Part # | Size | Lens |
|---|---|---|
| LP1 | 50mm/3mm Thick | Clear |

*To complete partial part numbers, add the shade number or diopter strength.*
